Dear Chairman Genachowski:

The FCC has an excellent opportunity to help move our economy forward by approving LightSquared's License Modification Application. The advancements in the mobile broadband network have done wonders to help create new jobs.

As a recent college graduate I am well aware of the issues facing all us with our country's recent economic woes. One way to help turn things around is by assisting companies such as LightSquared. They are expanding in a field that offers tremendous opportunities for new jobs.

The FCC has done much to move this new technology forward and I appreciate your efforts. Please keep up that good work and by doing so help create work for others. LightSquared's application is one of those opportunities to help all of us.

Thank you.

Sincerely,

Jennifer Parks
